NEWS FROM OUR SUPPLIERS

Take Off Time

AT KidSystems™ presents Cosmo's Learning Systems—an innovation in learning for children with and without disabilities. Cosmo's Learning Systems is comprised of the computer interface device, Mission Control™, and the first Cosmo's Play and Learn™ software educational program titled Playground Discovery. The system motivates children age 2 to 8 years, with and without disabilities, to use Mission Control in place of a mouse or keyboard to engage Cosmo in exploring numerous activities featured in the software program. AT KidSystems, (301) 495-0770, www.atkidsystems.com.

Zip Into Fun

GameTime is now offering a new eight-foot Zip Slide that is the perfect combination of speed, fun and compliance. Its hood design and extra-long run out encourages a proper seated entry, fast descent and easy dismount. Also available are the double seven-foot Zip Slides with two bedways that offers the speed and compliance of the single Zip Slide while entertaining two kids simultaneously. Both the single and double Zip Slides can be attached to an existing structure, or purchased as free-standing units. GameTime, (800) 235-2440, www.gametime.com.

Family-Friendly Facility

Portable restrooms come in a variety of styles—from the standard portable restroom to wheelchair-accessible to deluxe restroom trailers. Wheelchair-accessible portable restrooms are an excellent choice for areas where there are families with young children. The extra space provides a family-friendly environment with enough room for a parent helping even two or three children. And where government regulations require it, you can rent a fully ADA-compliant restroom that is even larger. United Site Services, Inc., (800) 442-1286, www.unitedsiteservices.com.
